“Service with a Smile ~ What is Theological Reflection?”

What makes Christian Service different from doing “good deeds?” How are our service opportunities different from the service projects from the public school down the street? What does it really mean to do “theological reflection” in age appropriate ways? These are some of the questions we hope to answer in our gathering. Bring your service projects to share, learn some tips for building reflection into service experiences, and pray with us as we continue down the journey of building Missionary Disciples.
