

St. Gianna Beretta Molla *Pro-Life Saint*

With simplicity and equilibrium she harmonized the demands of mother, wife, doctor and her passion for life.

In September 1961 towards the end of the second month of pregnancy, she was touched by suffering and the mystery of pain; she had developed a fibroma in her uterus. Before the required surgical operation, and conscious of the risk that her continued pregnancy brought, she pleaded with the surgeon to save the life of the child she was carrying, and entrusted herself to prayer and Providence. The life was saved, for which she thanked the Lord.

“If you must decide between me and the child, do not hesitate: choose the child – I insist on it. Save him”. On the morning of April 21, 1962, Gianna Emanuela was born. Despite all efforts and treatments to save both of them, on the morning of April 28, amid unspeakable pain and after repeated exclamations of “Jesus, I love you. Jesus, love you», the mother died. She was 39 years old.

Saint Gianna Beretta Molla

Born in Milan, Italy, she specialized in Pediatrics at the University of Milan in 1952 and there after gave special attention to mothers, babies, the elderly and poor. She was pregnant with her fourth child when her doctor told her she had cancer. “Conscious immolation», was the phrase used by Pope Paul VI to define the act of Blessed Gianna, remembering her at the Sunday Angelus of September 23, 1973, as: “A young mother from the diocese of Milan, who, to give life to her daughter, sacrificed her own, with conscious immolation”. The Holy Father in these words clearly refers to Christ on Calvary and in the Eucharist. Gianna was beatified by Pope John Paul II on April 24, 1994, during the international Year of the Family.
