Section II Introduction

This Internal Control Self-Assessment Questionnaire is a multipurpose tool to be used by the parish Finance Council assessing the adequacy of internal controls within their organizations. The primary purpose of this tool is for the committee to **perform a self-review to help** identify areas of weaknesses, non-compliance, and/or unsound business practices.

This assessment is **not** intended to cover all portions of the control environment and should be considered summary in nature.

This questionnaire is designed so that a “NO” response indicates an area of potential concern. A “NO” response suggests the organization may be in non-compliance with a particular policy or procedure, and/or may have a missing or non-functioning control. A comment section is available with each section to explain or make note of recommendations. Additional sheets may be added if more space is required.

All Parish Finance Councils are required to self-assess themselves at regular intervals, depending on the outcome of the initial self-assessment. A parish or school with a significant number of “NO” responses should make needed changes and/or corrections, and then perform a follow-up self-assessment within a few months.

The pastor (or his designated representative*) along with the Trustees and Parish Finance Council Chairperson must review and sign the following: the Internal Control Self-Assessment Questionnaire, the Attestation Letter to Bishop Michal Fisher, and the Diocesan Annual Report. All three of these documents are due to the Diocese Internal Audit Department by November 1st of each year.

*A pastor may appoint an individual to review documentation, this designated representative should be someone segregated from the daily operations (not responsible for entering of transactions into PDS Ledger or Church Office or handling of cash receipts) of the parish and could include but is not limited to a member of the Finance Council, Trustee, parochial vicar, or family business manager.
